

Junior Professionals to Join our Growing Team

VIA Suzuki Architecture invites applications from dynamic architects or interns who are keen to join our growing team. As a young office of an established international firm, we offer tremendous opportunity for advancement and investment in our future. We have immediate openings for professionals with 3-5 years of experience who are excellent communicators, creative problem solvers, and strong team players. We invite application from more senior personnel as well.

Our firm is an award-winning design practice specializing in transit and development planning, urban sustainability, hospitality and resort work, and small institutional projects. We are highly committed to the implementation of innovative design process and the use of Building Information Modelling to support our goals. Candidates having experience with 3-D modelling programs such as Revit are preferred but our firm will provide training as required to new hires showing initiative in this area.

Please visit our website at www.via-architecture.com.

VIA Suzuki offers generous compensation, medical/dental/disability benefits, retirement contributions, commuter assistance and Flexcar membership. We are located in the core of downtown Seattle and offer potential travel and exchange with our office in Vancouver BC.

Please email resumes, including references and graphic samples of your work in PDF format, attention: Catherine Hart, AIA, chart@via-architecture.com, or deliver to:
